

Cassina

Tokyo

Description

The seat of this chaise longue is composed of 12 curved wooden strips (teak, beech or bamboo). The joining elements connecting the strips to the bars below are satin brass studs.

Year of production

2011

Material

The base is in solid wood (teak, beech or bamboo). The mattress comes with water-draining polyurethane upholstery and stain resistant polyester yarn coated in PVC treated with an exclusive formulation, called Glen Raven, guaranteed totally mould resistant and ISO 9001 certified. Available in 5 colours.
